

Information Security and Assurance Journal Publications Listing

The following journals were used in our survey of journal rankings and ratings. Note: the survey focused on Information Security Journals exclusively, not mainstream Information Systems or Computer Science journals that ALSO accepted articles in Information Security. These journals were selected based solely on the criterion that they accepted externally submitted articles for publication. It's up to you to determine the quality of the journal. URLs were accurate at time of creation (1/20/2010). We are NOT evaluating conference proceedings or collections of readings in this study.

Please direct questions to infosec@kennesaw.edu.

(IN)SECURE Magazine
